Media with their online status like College profile in Facebook. Students can refer the college’s and institution’s profile and choose the satisfactory colleges and institutions for their higher studies.

AA survey last year found that 71% of students used media to research schools. 40% said they used it as a research tool when where to enrol. This has prompted college and universities to use social media as an informative recruitment tool, with 96% of schools using social media in their online recruitment efforts.

Social Media for professionals
- Social Media is also very useful for those who seek for jobs and those in search for careers.
- Social media is LinkedIn for professionals. The people use this Social Media as an useful tool for job hunting.
- There are many more Professional Networking Sites apart from LinkedIn but it may the biggest one in across countries.
- The LinkedIn Network is totally intended for professionals. It helps to make professional connected network to build a better career.
- It also allows showcasing the user’s professional gallery which consist of the work examples and videos and slide share etc.

Educational approaches and benefits of social media
- Good Communication
A student can connect with anyone use of social media such as smart phone, tablet, computer and internet. Learner can exchange questions , phone calls, video calls with anyone. They don’t need to wait and meet the teacher physically. Social media promote learning by offering support with sharing documents.

- Important Information Online
Social media networks and up websites are providing plenty of information that can be useful to students. The educational benefits of social networking sites are help students prepare for important lessons, concepts . Social media websites will contain the latest data on various school subjects and thus, the students have the opportunity to survey and look into what is new.

- Helpful for Parents
Social media help the parents stay involved in the child’s education . The school’s give feed to parents can be updated on school-related activities, projects, and events that are happening. These are all positive impacts media have on parents’ communication with the school so as to learn about, share and observe their children’s academic and personal progress at school.

- Developed Literacy, Communication, Reading Skills
It is usually examined that students are bored of reading and writing, the internet and social media provide plenty of online information which often students are more inclined to read. Online messages, comments, news, articles, and books provide an endless list of information to be read, and students are motivated to devote their time and put some extra efforts towards their learning.

- Opportunities for Distance Learning
Other great advantage of social media in education is distance learning opportunities. There are many disadvantaged students who are not able to acquire formal education by attending regular classes in an educational institution. With the help of various online social media tools along with social media, modern educators are able to engage students through distance learning programs.

Disadvantages of social media
lack of privacy being discussed now, there are a lot many negative aspects to social media.
- Very recently one of the leading social media’s was accused of compromising its user’s privacy and contact details for profit making. It leads to a scary scenario to live in this cyber space.
- Negative aspects the generations before the social media had a very fulfilling and harmonious social life where they had very good connections between their fellow beings and with nature, which has been lacking ever since the advancement of social media.
- Present time generation today indulge their time and resource more into the hollow and many a times fake relationships endorsed by these profit oriented social giants.
- Recently many developing and developed countries, with diverse cultural background, witnessed an insidious chain of incidents, namely the suicide of many an account users, mainly young girls, women and also a lot of young men too.
- The reason being, a lot of ill minded people playing tricks at cheating those less enlightened kids of the social media block. Many girls committed suicide for their photos being morphed and used for the promotion of many adult products and also fake accounts intended for character assassination.
- In short social media is projecting a false picture of the real world that we live in, thereby creating and moulding an ill-informed generation of unrealistic, unenlightened individuals whom we call “Homo sapiens”.

Conclusion
The Social Media is now with lots of services and sources. These services and resources can make use by the users of Social Media. This paper is used to study its importance in education filed and found out that it is very helpful tool in education purposes and beyond. Students can make use of the interaction services, blogging services, group services in their studies and also use Social Media or search for colleges and career and other job opportunities.
